

Joint Congress of The 6th Biennial Congress of the Asian-Pacific Hepato-Pancreato-Biliary Association
The 29th Meeting of Japanese Society of Hepato-Biliary-Pancreatic Surgery

Historical Perspective 2017 in HPB Surgery and Interventional Approach - East Meets West -

Hiroki Yamaue
Department of Surgery
Wakayama Medical University

June 8, 2017 (Yokohama, Japan)

Aim of this special session

- The aim of the project is to search for the breakthrough for today's HPB Surgery & IVR and highlight the great contributors to the development of surgical procedures.
- To define the worldwide consensus to clarify historical pioneers in major HPB, the members of JSHPBS have attempted to conclude the pioneers, searching English literatures and also literatures in non-English natives. Then, we figure out the mentality of leading pioneers, and translate to inspire the future motivation in the field of HBP surgery for next generation.
- To improve surgeons' technics and patients' outcome in HPB field, It is significant for surgeons to know;

WHO did the great achievement in HPB surgery,

WHY the pioneers did attempt to innovate operative procedure,

HOW the procedure has been developed up to now.

- The goal of this project should be to improve patients' care in the HPB field.

Then, we would pay forward our knowledge and inspire ideas toward the next generation.

History and pioneers in HPB field

Working groups;

1. Liver surgery
 2. Biliary surgery
 3. Pancreatic surgery
 4. Liver transplantation
 5. Laparoscopic HPB surgery
 6. Non-operative biliary intervention
-

History and pioneers in HPB field

Working groups;

1. Liver surgery
 2. Biliary surgery *
 3. Pancreatic surgery **
 4. Liver transplantation
 5. Laparoscopic HPB surgery
 6. Non-operative biliary intervention
-

* present the data in Up-to-Date Lecture 9, and ** in Meet the Expert 11

Biliary surgery

Up-to-Date Lecture in HBP 9; 10:15 – 10:45, Jun 9 (Fri) Room 8

- **Extended resection for biliary tract cancer; a large contribution of Japanese surgeons towards standardization.**

Tomoki Ebata, Nagoya University

Pancreatic surgery

Meet the experts 11; 7:30 – 8:30, Jun 9 (Fri) Room 7

- **Artery-first approach in pancreatic surgery**

Hiroki Yamaue, Wakayama Medical University

Sun-Whe Kim, Seoul National University

History and pioneers in HPB field

Working groups;

1. Liver surgery

2. Biliary surgery

3. Pancreatic surgery

4. Liver transplantation

5. Laparoscopic HPB surgery

6. Non-operative biliary intervention

1. Liver surgery

- History of pioneers in anatomical right lobectomy
Atsushi Nanashima, Miyazaki University

2. Liver transplantation

- Evolution of living donor liver transplantation:
A global perspective
Taizo Hibi, Keio University

3. Laparoscopic HPB surgery

- Pioneers in laparoscopic HPB surgery
Yoshihiro Miyasaka, Kyushu University

4. Non-operative biliary intervention

- Historical investigation of non-operative biliary interventions
Takao Itoi, Tokyo Medical University
